ZINC HYDROXYCHLORIDE

SOURCE OF ZINC FOR USE IN ANIMAL FEED ONLY

IntelliBond Z

CAS Number: 12167-79-2

This product is intended solely for the purpose of meeting the nutritional zinc requirements of livestock and companion animals. When used as a feed ingredient it must be declared as **Zinc Hydroxychloride**.

GUARANTEED ANALYSIS:

ZINC (Zn) MINIMUM 55%

PHYSICAL DESCRIPTION

IntelliBond Z is a tan, granular powder that weighs approximately 50 lb/ft³.

DIRECTIONS FOR USE

For best results it is recommended that a nutrition professional be consulted to determine an optimized feeding level.

Premix: Add IntelliBond Z at the rate of 3.70 lb/ton of premix to obtain a zinc concentration of 1,000 ppm in the final premix. To obtain a zinc concentration of 500 ppm in the final premix, add IntelliBond Z at 1.85 lb/ton of premix.

Complete Feed: Add IntelliBond Z at the rate of 0.37 lb/ton of complete feed to obtain a zinc concentration of 100 ppm in the final feed. To obtain a zinc concentration of 50 ppm in the final feed, add IntelliBond Z at 0.185 lb/ton of complete feed.

INGREDIENTS

Zinc hydroxychloride, and starch (as a binder)

QUALITY CERTIFICATION

IntelliBond Z is produced in a facility with the following quality certifications: **Safe Feed/Safe Food, HACCP, FAMI-QS, SQF and ISO 9001.**

STORAGE

Product should be stored in a clean, cool and dry environment. It is advised that a system of "first in/first out" be followed to ensure optimized product quality.

CAUTION

As is the case with any trace mineral ingredient, excessive levels of Zinc Hydroxychloride can be toxic.

WARNING

- Keep out of reach of children.
